Summary:

Enthusiastic and detail-oriented Full-Stack Developer with expertise in MERN stack, UI/UX design, and DevOps tools like Docker, Kubernetes, and AWS. Passionate about building scalable web applications and optimizing cloud-based solutions.

Skills :

Category	Skills/Technologies
Front-End Development	HTML, CSS, JavaScript,Bootstrap
Full-Stack Development	MERN Stack (MongoDB, Express.js, React.js, Node.js)
UI/UX	Figma
Version Control	Git
Containerization	Docker
Cloud Platforms	AWS EC2, S3, IAM, RDS, DynamoDB, VPC
Devops	CICD, Kubernetes, Terraform, Ansible

Projects:

1. VF Catering (A Catering Shop) E-Commerce website

Designed and developed a responsive website for a fictional catering shop using HTML and CSS to showcase a visually appealing and user-friendly online presence. Overcome issues with responsiveness on mobile devices through testing and adjustment of layout and styling.

2. Simple Login Form

Developed a responsive login form using HTML & CSS to provide a smooth user experience. Built the backend using Node.js and Express.js, handling HTTP requests and managing user sessions with express-session. Connected the application to MongoDB for user data storage, with Mongoose for schema-based modeling and database interaction Deployed the application on a local server, demonstrating full-stack development skills and ensuring secure data flow between frontend and backend.

3.Portfolio Website

 A Responsive portfolio website showcasing skills, projects, and contact details, built using HTML, CSS, and JavaScript. Deployed using GitHub Pages for easy access and sharing.
